You may check the status of an entity registration when you are logged into your SAM.gov account if you have a role assigned to the entity registration, or if the email address on your account is recognized by a federal government email address.

- Locate your registration using the steps in our FAQ "How do I view my existing entity registration while logged into SAM.gov?"
- A federal government user account holder will select Search Records once logged into SAM to locate the desired registrations, using the instructions below.

When an entity has provided SAM.gov Search Authorization, anyone may check the status once they are logged into SAM.gov

If you know the DUNS Number/Unique Entity Identifier (UEI), CAGE Code, or Electronic Funds Transfer (EFT) Identifier for the entity, you can check the status by following the steps below:

1. Navigate to SAM.gov.
2. Select the "Sign In" button in the upper right corner. Select "Accept" to accept the US Government System terms.
3. After selecting "Accept," the system will direct you to login.gov.
 - Enter your login.gov credentials and select "Sign In." You may be prompted to enter a one-time security code. (You will receive this code via the authentication method you selected during account creation.) Note: If you do not already have a login.gov account, please create an account.
4. After signing in, the system will redirect you to your SAM.gov workspace.
5. Navigate to the home page by clicking the Home tab.
6. Select "Check Registration Status" on the SAM.gov homepage.
7. Enter a public entity's Unique Entity Identifier/DUNS Number , CAGE code, or EFT Identifier.
8. The status provides a quick summary for an entity, displaying the progress of that entity's most recent record. It will also display what steps remain until it is completed. The steps required are determined based on the purpose of registration.
9. Select the topic under the 'More About' for additional help on any of the status symbols or steps.
10. To get the full entity details with reps and certs or any exclusions or to see non-public entities, you will need to use the main search.

If you DO NOT know the DUNS Number/Unique Entity Identifier (UEI), CAGE Code, or Electronic Funds Transfer (EFT) Identifier for the entity, you may perform a search to find an entity's registration or registration status by following the steps below:

1. Navigate to SAM.gov.
2. Select the "Sign In" button in the upper right corner. Select "Accept" to accept the US Government System terms.
3. After selecting "Accept," the system will direct you to login.gov.
 - Enter your login.gov credentials and select "Sign In." You may be prompted to enter a one-time security code. (You will receive this code via the authentication method you selected during account creation.) Note: If you do not already have a login.gov account, please create an account.
4. After signing in, the system will redirect you to your SAM.gov workspace.

5. Select the Search tab.

6. Select the Entity Information domain and select Entity Registrations.

7. Click the arrow next to each filter under Filter By on the filter navigator to expand and search using those criteria.

8. If you locate the desired entity, the registration status will show next to the entity name.

Note: If the entity's administrator has chosen not to provide SAM.gov Search Authorization, the record will not appear in the public search display. Only federal government users, whose e-mail address ends in .mil, .gov, .si.edu, .dodea.edu, or uhus.edu will be able to view the registrations.

Log in to your account and follow the instructions below:

1. From the homepage, select “Entity Registrations.”
2. Enter a search term such as an Entity Name, DUNS Number, Unique Entity Identifier (UEI) into the search box and hit Enter.
3. Select the item you are interested in from the search results. You can use the filters on the left side of the page to narrow your results.
4. If you are interested in following the item, you can select the “Follow” link above the entity's name. You can unfollow items from your Workspace.
